AAFP Home Study Self-Assessment®: The Monograph Collection

The CD-ROM, produced in conjunction with the American Academy of Family Physicians, is a collection of monthly monographs from the *Home Study Self-Assessment* program. Each of the 72 monographs is a comprehensive discussion of a single topic like Drug Therapy, Stroke, Skin Disorders, or Adolescent Medicine.

This CD-ROM offers an **entire** six year curriculum which covers the core clinical content of family practice. The program is designed so that the physicians may use it to enhance and maintain competence, meet continuing medical education requirements, and to prepare for ABFP recertification examinations. *Home Study* is a systematic six year curriculum in family practice: *a textbook in monthly installments* and [here](#) available on one disc. **Price \$195. 30-day money-back guarantee.**

- Full search and index features
- All multiple-choice questions/answers
- CME options available for 1996 monograph
